Subject: Microsoft Settlement

The proposed settlement neither makes up for past sins nor discourages current and future transgressions.

Justice must be seen to be done and this 'settlement' could only be seen as an ominous travesty.

There must be scope for competition. Standards must be publicised and used.

But remember, please, the Law by which we live,

We are not built to comprehend a lie.

We can neither live nor pity, nor forgive,

If you make a slip in handling us you die!
